Joint Fires Observer Course

A JFO is a certified and qualified Service member who requests, controls, and adjusts surface-to-surface fires; provides targeting information in support of CAS; and performs terminal guidance operations (TGO). The JFO adds warfighting capability and in conjunction with the JTAC, FAC(A), and fire support officer, assist maneuver commanders with timely planning, synchronization, and responsive execution of joint fires.

Joint Fires Observer Course

WANTS YOU

The JFOC at Hohenfels Training Area (building 744) has increased each class size to facilitate eight students. The pass rate through the first five classes of FY 23 is 94%. Students that attend Pre-JFO training at home stations with a focus on basic CFF skills perform significantly better than those that do not. Historically, the majority of Soldiers that fail the course do so due to large Target Location Errors (TLE) during unaided missions. The next class is set to start on 07 MAY 23. The full FY 23 and FY 24 schedules can be viewed in ATRRS.

INTERNATIONAL TRAINING COORDINATION

7ATC provides multiple training opportunities to NATO partners and allies. Coordination through the Office of Defense Cooperation (ODC) is the most expedient method for submitting requests, confirming course availability, and funding students. Submit requests 12-24 months in advance to ensure space and course availability. Contact the personnel below if you have further questions.
